Write a sentence that has the greatest value for all of its letters you can think of.

Week three: Tuesday

Word Problem of the Day:

Find 5 different 3d shapes. Draw a sketch of the shape and label the vertices (corners), edges and faces.

Writing Challenge:

Stand outside your house, or open a window. Write what you see, smell and hear. Describe each thing.

Week three: Wednesday

Word Problem of the Day:

Josie had 30 chocolates. She shared 16 with her brother and ate 9. How many chocolates does Josie have left?

Writing Challenge:

Write a letter to someone you have not seen in awhile. Make sure to include the heading, greeting, body, closing and signature.

Week three: Thursday

Word Problem of the Day:

I added 3 numbers together. I added $13 + ? + 6 = 31$

What is the missing number?

Writing Challenge

Find 5 words in a book that you don't know the meaning of. Look up the meaning of the word in a dictionary or on the computer and then print both the meaning and the word.

Week three: Friday

Word Problem of the Day:

Harper asked people what their favourite food was. Her results are in the chart. Apples were 2 times more popular than pizza. Fill in the votes for apples and then answer the questions.

What was the most popular food?

What food was least popular?

How many people did Harper ask altogether?

How many more people liked carrots than pizza?

Food	Votes
Pizza	9
Carrots	13
Apples	

Writing Challenge of the Day:

Peter and Jacob were at a store. They each got to pick out a treat. Both boys loved jelly beans. There was one pack of jelly beans left. They both reached for it and grabbed it at the same time.

Write a story telling what happened next. Make sure to include a beginning, middle and end.
